

*Our Lord's  
 commandment to  
 "Go and make disciples of  
 all nations" is at the very  
 heart of our mission.*

## Coming in 2018

A storm this fall **took off the roof** of Grace Baptist Church in the Petauke area. The rainy season is beginning, so it is important that we have this repaired. Our Zambian leaders Brother Dickson and Brother Mweyama are working to assess the damage and secure the repairs.

JRM Board Vice President is working with our printer in Zambia to have the **English/Chichewa Old Testament printed**. This will be needed as we begin using Level II courses.

With the new work in the Petauke area, and the commitment from Mobberly Baptist to bring pastoral training as well as future medical/evangelism teams, our goal is to **rebuild the ministry in the Eastern Province**. New trainers will be needed to accomplish this. Please contact us if interested in getting information about the medical/evangelism trip being considered for 2018.

The first group classes using the courses, in Livingstone and Lilongwe, are getting close to having graduations. These **test groups** will help us know how to plan for the great numbers in need of discipleship.

### Board

*President:* Eddie Napps  
*Vice President:* Rick Carr  
*Treasurer:* Scott Hamilton  
*Secretary:* Susan Green  
*New Member:* Sam Neale

- *Pray for the roof repairs for Grace Church.*
- *Pray for the printing of the Old Testament and use of Level II courses.*
- *Pray for the rebuilding of ministry in the Eastern Province.*
- *Pray for the expansion of group classes.*

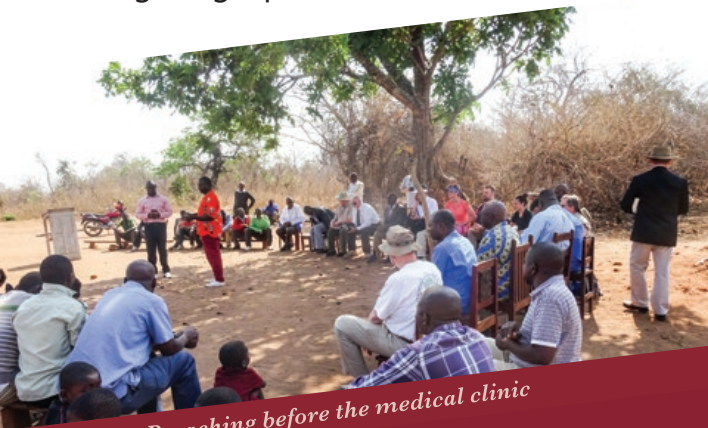

## Medical / Evangelism Team to Zambia

**T**his September, Jericho Road Ministries partnered with Mobberly Baptist Church for the first time in Zambia to bring a medical clinic and evangelistic efforts to the Petauke area. The Lord blessed greatly in many ways.

*Checking the blood pressure of one of the 1,588 patients*

The medical clinics set up at Grace Baptist Church and Living Water Baptist Church, seeing 1,588 patients. Having two Zambian doctors work alongside of our U.S. personnel was a wonderful opportunity to compare medical information as well as us sharing the gospel with them.

*Preaching before the medical clinic*

Each night, the Jesus film was shown to a total of 2,000 people. Each day the evangelism team members went into the villages for hut to hut witnessing. When all was finished, there were 3,930 salvations and wonderful new relationships developed.

Chief Nyamphande was very pleased to have our team in his district and welcomes our return. Mobberly planted two new churches while there. They are High Point Baptist Church, which

*Rick with Chief Nyamphande.*

overlooks a mosque, and Hope Baptist Church. These new churches, along with the salvations from the week will bring more opportunities for our Bible courses to be used in discipleship.

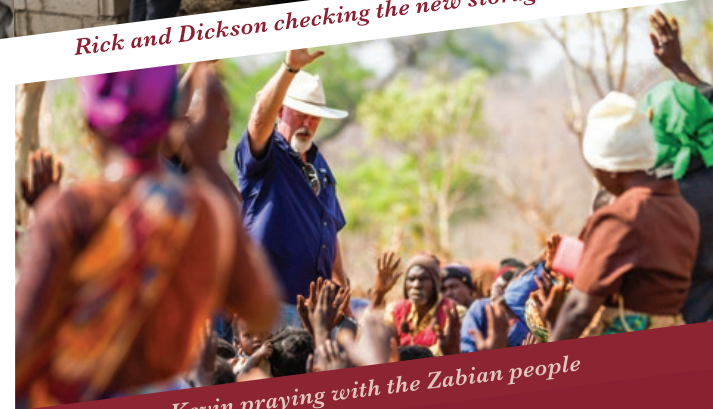

- *Pray for these two new churches and the many new believers. Pray for the preparations for the next mission team going possibly in 2018.*

## New Storage and Office

**A**fter a fire damaged our previous storage facility, we purchased a shipping container that will be used to store our Bible courses and Bibles before being distributed. This also gives enough space for a first-ever office space for our national leader. Prayers have been answered in guiding us to this provision. After a small amount of remodeling inside, it will be ready for use.

*Rick and Dickson checking the new storage container*

*Kevin praying with the Zambian people*

- *Pray for the completion of this storage / office space.*
